

Microvent kit

#13001

The Microvent Kit can be installed with any of our floor mounted pumping stations where a vent to atmosphere is not possible to install.

Its activated carbon filter consist of carbon granules, which are obtained from coconut shells, wood and coal. These different sources result in a wide variety of grades, covering specific applications. For gas or air treatment, for example, the most effective carbon is produced from coconut shells or anthracite, both of which have exceedingly fine pore structures that can be greatly developed during the activation process

The specifically developed filter has hose connections for 1½" (38mm) ID Breather required by British Standard MA 101.

INSTALLATION

The Microvent Kit does not need to be installed directly to the pumping station, however access is required for the removal and replacing of the active carbon filter element.

A minimum of 32mm (1¼") clearance from any obstruction is required for the removal of the filter cover. The filter element itself is 95mm. (3¾") long and 100mm. (4") in diameter. Space must be provided to effect its removal from the Microvent body after the cover has been removed.

Connection is via a 1½" (38mm) ID connection. Performance is marginally better if the bottom connection is made the inlet, however if necessary the side connector can be used instead.

The optional hose connection elbow can be used on either connection to facilitate installation. This should be clamped with the steel jubilee clip provided.

MAINTENANCE

Filter replacement is very simple and can be completed as part of a scheduled service.

For domestic installations serving a single household, we recommend the filter is replaced every 12 months.

For commercial installations, we recommend the filter is replaced every six months.

Replacement filters can be ordered from www.edincare.com (product code 13021) or by calling 01442 211554.

Microvent internal filter #13021

SUITABLE FOR

Above ground

New build

Retro-fit

Foul

Grey

WASTE TYPE

All our products can be customised to your requirements. For more information on this please contact our sales team on 01442 211554.

DELIVERING PUMPED AND DRAINAGE SOLUTIONS FOR OVER 25 YEARS

Packaged pumping stations

Waste water pumping systems

Macerators and macerating toilets

Floor mounted pumping stations

Fat, oil and grease separating systems

Rainwater harvesting systems

Battery backup systems

Adoptable pumping stations

Submersible pumps

Accessories

We provide pumped and drainage products and services to the public and private sectors, including residential, commercial, hospitality and retail.

We are proud of the long-term relationships we have built with our clients and partners, delivering cost effective, robust and dependable products and services.

12-MONTH GUARANTEE

Your products are protected by a 12-month guarantee. Please refer to our Terms and Conditions at www.edincare.com

HOW TO ORDER
