JS750SK

The JS750SK submersible sewage grinder impeller pump macerates soft solids suspended in water into smaller parts that can pass through the pump body to waste. Supplied as standard as a free standing motor, it can also be pedestal mounted for guide rail installation. The pump can be supplied with a conventional ball type 'MAC 3' float or without a float for manual operation.

APPLICATION

- Factories and warehouses
- Housing developments
- Commercial buildings
- Retail and leisure
- Domestic properties

SUITABLE FOR

- Foul water
- Grey water

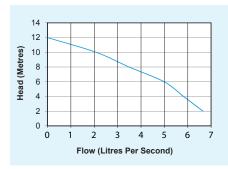

IMPELLOR TYPE

Grinder

KEY FEATURES

- Cutter impellor for sewage applications.
- · Stainless steel shaft and motor case
- Cast iron motor top cover, lower motor bearing/seal housing, pump case, impellor and volute
- Twin mechanical seals carbon ceramic and silicon carbide in a lubricated chamber
- Hose tails supplied with all models
- Internal thermal protection
- Suitable for foul and grey water applications

PUMP CURVE

DIMENSIONS

JS750SK		
Height	495mm	
Width	195mm	
Length	310mm	

TECHNICAL SPECIFICATIONS

JS750SK	Single Phase	
Power Supply	230V AC	
Rated Current	6.5A	
Motor Rating	750W	
Frequency	50Hz	
Revolutions Per Minute	3000rpm	
Max. Vertical Output	12m	
Max. Flow Rate	400 l/m	
Max. Liquid Temperature	<40°C	
Discharge Size	2"	
Free Passage	N/A	
Cable Length	10m	
Weight	29.4kg	
Colour	Black / Silver	
Impellor Type	Grinder	
Control	Manual / Automatic
