

AutoFlushTwin

The AutoFlushTwin is a fully automatic pumping station suitable for pumping grey water with small solids (smaller than 5 mm in diameter) to a higher level when gravity drainage is not possible and/or economical to install.

The compact tank is ideal for accepting waste from utility sinks, wash basins, tea points or similar. Edincare's 'OpenFlow' impeller technology enables discharge through small bore pipe work for installation through busy service voids and roof spaces.

The system consists of a sealed polyethylene chamber, internal pipe work and fittings, automatic 'OpenFlow' submersible pumps and solvent weld outlet connection. Installation of an optional low level floats enables a low level inlet into the chamber.

The AutoFlushTwin is easy to install as inlets can be drilled to suit site requirements (inlet information to be supplied at time of order).

KEY FEATURES

- Twin pumps to protect against pump failure and heavy water inflows
- Edincare 'OpenFlow' technology enables pumping of waste water through small bore pipes
- Reliable automatic pumps suitable for soft solids up to 5mm in diameter
- Variable inlet positions offer high versatility on site (inlet information to be supplied at time of order)
- A range of control panels, alarms and remote alerts are available offering peace of mind to the end user
- Installation of an optional low level float enables a low level inlet into the chamber

PUMP CURVE

DIMENSIONS (mm)

Product	Length	Width	Height
AutoFlushTwin	600	400	450

TECHNICAL DATA

CHAMBER	
Colour	Grey
Material	Polyethylene
Weight	16.5 kg
Lifting eyes	No
Capacity	90 litres
External discharge size	32 mm
PUMP	
Number of pumps	2
Power supply	230 VAC
Rated current	1.4 A
Motor rating	320 W
Frequency	50 Hz
Revolutions per min.	2720 rpm
Max vertical output	7 m
Horizontal fall	1:200
Max flow rate	108 l/m
Max liquid temp.	<40°C
Free passage	10 mm
Discharge size	32 mm
Cable length	3 m

SUITABLE FOR

WASTE
