SumpFlushHP Twin c/w Timer Control Panel

SYSTEM OVERVIEW

10-hour changeover control panel with high level alarm and volt-free contact

11/4" Class E PVC pipework

11/4" Class E PVC discharge

110 mm inlet

50 mm cable duct

Access cover, solid top, locking, galvanised steel, FACTA AA

The SumpFlushHP Twin is a fully automatic wastewater pumping system suitable for pumping surface and/or ground water to a higher level when gravity drainage is not possible and/or economical to install.

It features two powerful submersible pumps for high head (up to 12 m) and flow (up to 4 l/s) applications.

The system provides up to 65 litre storage capacity depending inlet depth. It can accept waste from car parks, car washes, floor areas, down pipes, cavity membrane systems or similar.

It is not suitable for receiving foul waste. Contact our Sales Team for advice on a suitable foul water packaged pumping stations for your property.

The system consists of a polyethylene tank, two powerful automatic wastewater submersible pumps and a solid top, locking, galvanised steel access cover (FACTA AA).

The control panel balances the wear between the two pumps, and provides a high level alarm and volt-free contacts for remote monitoring.

It discharges to solvent welded 11/4" Class E PVC. Optional discharge reducer kits can increase external discharge diameter to 1½" or 2" to reduce friction loss.

It is easy to install as inlets can be positioned to your site's requirements. Inlet information to be supplied at time of order, or can be drilled on site.

KEY FEATURES

- Powerful vortex pumps for high head and flow
- Twin pumps for backup if one of the pumps fail
- Control panel for timed changeover, high level alarm and volt-free contacts
- Up to 65 litres storage capacity
- Compact chamber for limited space installations
- · Ideal for an extension, outbuilding, basement or similar
- 350 mm x 350 mm clear opening
- · Variable inlet positions to suit site
- · A range of battery backup systems are available
- Quick and simple to install

WASTE TYPE

For groundwater and surface water applications where inflow cannot be controlled, a battery backup system should be used, in accordance with BS 8102:2022 and PCA Guidelines. Battery backup systems can be purchased to your specification.

RECOMMENDED ACCESSORIES

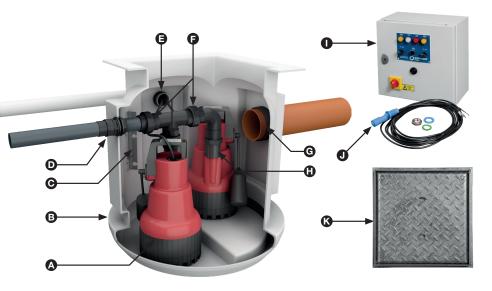

All our products can be customised to your requirements. For more information and advice please call our Sales Team on 01442 211554.

SumpFlushHP Twin c/w Timer Control Panel

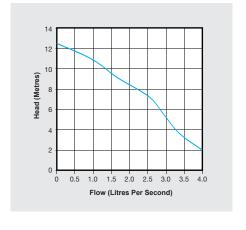

KEY FEATURES

- A. Powerful automatic 240 V submersible pump.
- B. Structurally-reinforced virgin tank-grade polyethylene chamber.
- C. Float bracket for optional high level alarm mini float.
- 11/4" Class E PVC plain female discharge for solvent welding to high pressure PVC (reducer kits available).
- E. 50 mm cable duct positioned to site requirements.
- Socket union for simple pump removal during servicing.
- G. 110 mm inlet positioned to site requirements (additional inlets available).
- H. Non-return valve.
- 10-hour changeover panel with high level alarm and volt free-contact in IP54 mild steel enclosure.
- J. Mini float switch (5 m cable)
- K. Galvanised steel, solid top, locking, access cover, FACTA AA (inlay access cover available).

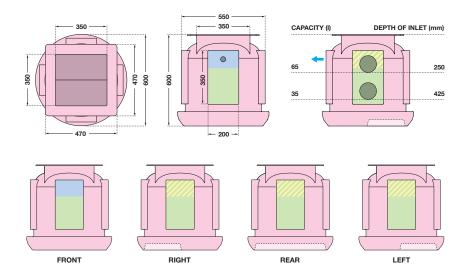

PUMP SPECIFICATIONS

Number of pumps	Two
Impellor type	Vortex
Control	Automatic
Power supply	230 VAC
Rated current per pump	4.9 A
Motor rating (P2) per pump	500 W
Revolutions per min.	2800
Discharge size	11⁄4"
Free passage	10 mm
Max. vertical output per pump	12.5 m
Max. flow rate per pump	4.0 l/s
Max liquid temp.	<40 °C
Cable length	5 m
Weight	6.9 kg

CHAMBER DIMENSIONS

Shows indicative capacities from lowest inlet invert.

Permitted connection positions

Discharge only	Inlat lanation allowed	Cable dusts and vents and	No drilling allawad
Discharge only	inlet location allowed	Cable ducts and vents only	No drilling allowed

CHAMBER SPECIFICATIONS

Internal pipework	11/4" OD Class E PVC
Discharge pipework	11/4" OD Class E PVC
Lifting eyes	No
Maximum storage capacity	65 litres
Chamber material	Tank-grade polyethylene
Dimensions (Ø x H)	600 x 600 mm
Clear opening	350 x 350 mm

ACCESS COVER

Material	Galvanised steel
Cover type	Solid top
Locking	4 screws
Loading	FACTA AA
Clear opening (H x W)	300 x 300 mm
Dimensions (H x W x D)	370 x 370 x 47 mm

DELIVERING PUMPED AND DRAINAGE SOLUTIONS FOR OVER 30 YEARS

Packaged pumping stations

Waste water pumping systems

Macerators and macerating toilets

Floor mounted pumping stations

Fat, oil and grease separating systems

Rainwater harvesting systems

Battery backup systems

Adoptable pumping stations

Submersible pumps

Accessories

We provide pumped and drainage products and services to the public and private sectors, including residential, commercial, hospitality and retail.

We are proud of the long-term relationships we have built with our clients and partners, delivering cost effective, robust and dependable products and services.

PROJECT SERVICES

- Project design
- Site surveys
- Installations
- Refurbishments

AFTERSALES SERVICES

- Planned servicing
- · Emergency call outs
- Commissioning
- Monitoring

DRAINAGE SERVICES

- Tankering
- Jetting
- Structural repairs

Cleaning and de-scaling

- Drainage CCTVExcavations
- Surveys
- · Root cutting

12-MONTH GUARANTEE

Your products are protected by a 12-month guarantee. Please refer to our Terms and Conditions at www.edincare.com

HOW TO ORDER

Order online at www.edincare.com Call Sales on 01442 211554 Email sales@edincare.com

Protect your property with an Edincare Service Agreement

As with all pumped and drainage systems, regular maintenance is essential to ensure optimum performance and minimal downtime. Our Service Agreements comprises planned preventive maintenance visits at an agreed frequency, we also service other manufacturers' equipment regardless of type, make and age.

- ✓ Validates your building insurance
- Reduces the risk of failure
- ✓ Increases the life expectancy of your equipment
- ✓ Priority callouts and 24/7 out-of-hours service
- Reduced rates for emergency call outs
- Flexible payment options (Direct Debit)
