

AutoFlushHTTwin c/w Timer Control Panel

The AutoFlushHTTwin is a fully automatic pumping station is suitable for pumping hot water (up to 90°C) to a higher level when gravity drainage is not possible and/or economical to install.

The system is offered with 160 litre storage capacity. The compact chamber is ideal for accepting waste from utility sinks, commercial dishwashers, tea points or similar. The pump discharges through small bore pipe work for installation through busy service voids and roof spaces.

The system consists of a sealed GRP chamber, internal pipe work and fittings, two automatic high-temperature submersible pumps and solvent weld outlet connection. A control panel offers even wear for the two motors as well as a high level alarm and volt free contacts.

The AutoFlushHTTwin is easy to install as inlets can be drilled to suit site requirements (inlet information to be supplied at time of order).

KEY FEATURES

- Twin pumps to protect against pump failure and heavy water inflows
- Control panel for timed changeover, high level alarm and volt free contacts
- High-temperature pumps suitable for water up to 90°C
- Robust high-temperature GRP chamber with 160 litre storage capacity
- Variable inlet positions offer high versatility on site
- A range of remote alerts are available offering peace of mind to the end user
- Installation of optional low level floats enables a low level inlet into the chamber

PUMP CURVE

DIMENSIONS (mm)

TECHNICAL DATA

CHAMBER	
Colour	White
Material	GRP
Weight	33.5 kg
Lifting eyes	No
Capacity	160 litres
External discharge size	1½"
PUMP	
Number of pumps	2
Power supply	230 V AC
Rated current per pump	3.9 A
Motor rating per pump	830 W
Frequency	50 Hz
Revolutions per minute	2510 rpm
Max vertical output per pump	10 m
Max horizontal output per pump	70 m
Horizontal fall	1:200
Max flow rate per pump	330 l/m
Max liquid temperature	<90 °C
Discharge size	1½"
Cable length	10 m
CONTROL PANEL	
Material	Metal
Volt free contact	Yes
Voltage	240 V
Volted contact	24 V
Dimensions L / W / H	400 mm / 400 / 200 mm
FLOAT	
Material	Polyethylene
Cable length	5 m

WASTE TYPE

Grey

High temp

OPTIONAL EXTRAS

Control equipment

Battery backup

Monitoring

Pipework (external)

Level controls

Additional inlets

All our products can be customised to your requirements. For more information on this please contact our sales team on 01442 211554.

DELIVERING PUMPED AND DRAINAGE SOLUTIONS FOR OVER 25 YEARS

Packaged pumping stations

Waste water pumping systems

Macerators and macerating toilets

Floor mounted pumping stations

Fat, oil and grease separating systems

Rainwater harvesting systems

Battery backup systems

Adoptable pumping stations

Submersible pumps

Accessories

We provide pumped and drainage products and services to the public and private sectors, including residential, commercial, hospitality and retail.

We are proud of the long-term relationships we have built with our clients and partners, delivering cost effective, robust and dependable products and services.

12-MONTH GUARANTEE

Your products are protected by a 12-month guarantee. Please refer to our Terms and Conditions at www.edincare.com

HOW TO ORDER

Protect your property with an Edincare Service Agreement

As with all pumped and drainage systems, regular maintenance is essential to ensure optimum performance and minimal downtime. Our Service Agreements comprises planned preventive maintenance visits at an agreed frequency, we also service other manufacturers' equipment regardless of type, make and age.

- ✓ Validates your building insurance
- ✓ Reduces the risk of failure
- ✓ Increases the life expectancy of your equipment
- ✓ Priority callouts and 24/7 out-of-hours service
- ✓ Reduced rates for emergency call outs
- ✓ Flexible payment options (Direct Debit)
