

# Battery backup pump system 24V

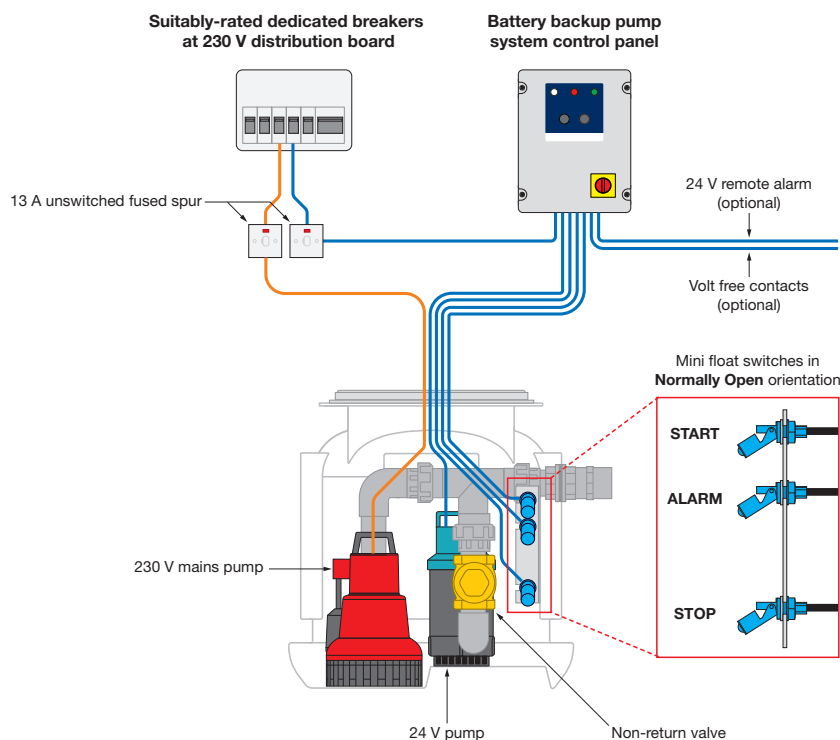

The battery backup pump system is designed to protect a property where the possibility of primary pump failure through either a pump fault or loss of mains power would be catastrophic. The system comprises a control panel, 24 VDC backup pump, three float switches and a non-return valve. It is suitable for SumpFlush wastewater pumping systems.

## KEY FEATURES

- Free standing 24 VDC pump suitable for ground, surface and storm water applications
- Control panel displays system status
- Visual and audible high level alarm indicator
- Trickle charging conditions battery and maintain full charge
- Non-return valve prevents back flow
- Three mini float switches to activate the pump and high level alarm
