

Atlas 70 (Single Phase)

The Atlas 70 is a fully automatic floor mounted pumping station suitable for pumping both foul and storm water to a higher level when gravity drainage is not possible and/or economical to install.

It features a single vortex pump and requires a 230 V mains power connection. It includes dynamic pressure sensors in the tank and a control panel to activate and deactivate the pump and alert if a high level condition is detected.

Like all our floor mounted pumping stations, it does not require civils works which makes it ideal for retrofitting into an existing buildings. Its compact chamber allows passage through standard door openings.

It can accept inlets from many orientations up to DN 150 to suit the applications and site requirements. There is a flanged DN 80 discharge with plus flanged socket with 4" sleeve and clips (for discharge to DN 80/100).

KEY FEATURES

- Suitable for pumping grey and foul water in accordance with BS EN 12050-1
- Quick and simple installation, without needing civils works
- Compact, robust, odour-tight polyethylene tank
- Compact dimensions that allow passage through a standard door opening
- Dynamic pressure level sensors in the tank, and a control panel with high level alarm and volt-free contact
- A range of accessories

WASTE TYPE

Grey

Foul

TECHNICAL DATA

Power supply	230 V AC 1~
Number of pumps	1
Pump type	Vortex
Rated current	8.4 A
Motor rating (P2)	1300 W
Revolutions per min.	1450
Max vertical output	7 m
Max flow rate	12 l/s
Max liquid temp.	<40°C
Discharge size	DN 80 / DN 100
Mains cable length	1.5 m
Weight	55 kg
Tank capacity	70 l
Tank material	Polyethylene

RECOMMENDED ACCESSORIES

Gate valve DN80 (PN 16)

#10011

Hand membrane pump

#11010

Microvent kit

#13001

Microfilter internal filter

#13021

All our products can be customised to your requirements. For more information and advice please call our Sales Team on 01442 211554.

Atlas 70 (Single Phase)

DIMENSIONS

mm	Length	Width	Height
Chamber	800	572.5	500
Control panel	185	235	115

Connections

1. Inflow DN 150
2. Inflow DN 100
3. Inflow DN 100 (with adaptor fitted)
4. Inflow DN 100 (with blanking plate fitted)
5. Inflow DN 70
6. Inflow DN 70
7. Vent/Inflow DN 70
8. Inflow/Hand membrane pump DN 40
9. Discharge flange DN 80
10. Flexible connector
11. DN 100 inflow adaptor

DELIVERING PUMPED AND DRAINAGE SOLUTIONS FOR OVER 30 YEARS

Packaged pumping stations

Waste water pumping systems

Macerators and macerating toilets

Floor mounted pumping stations

Fat, oil and grease separating systems

Rainwater harvesting systems

Battery backup systems

Adoptable pumping stations

Submersible pumps

Accessories

We provide pumped and drainage products and services to the public and private sectors, including residential, commercial, hospitality and retail.

We are proud of the long-term relationships we have built with our clients and partners, delivering cost effective, robust and dependable products and services.

12-MONTH GUARANTEE

Your products are protected by a 12-month guarantee. Please refer to our Terms and Conditions at www.edincare.com

HOW TO ORDER

Protect your property with an Edincare Service Agreement

As with all pumped and drainage systems, regular maintenance is essential to ensure optimum performance and minimal downtime. Our Service Agreements comprises planned preventive maintenance visits at an agreed frequency, we also service other manufacturers' equipment regardless of type, make and age.

- ✓ Validates your building insurance
- ✓ Reduces the risk of failure
- ✓ Increases the life expectancy of your equipment
- ✓ Priority callouts and 24/7 out-of-hours service
- ✓ Reduced rates for emergency call outs
- ✓ Flexible payment options (Direct Debit)
