

PowerFlushPro

The PowerFlush Pro is a fully automatic macerator suitable for pumping waste from a complete bathroom to a higher level when gravity drainage is not possible and/or economical to install. The system can accept waste connections from a toilet, basin, shower or bidet. It is not suitable for connection to washing machine, dishwasher or bath.

The system features razor sharp stainless steel blades that act like a pair of rotary scissors to cut up waste items, reducing the chance of a blockage.

The system is compact and easy to install. It discharges to the right or left. The 100mm inlet to the chamber can be fitted centrally on the front face or side. It includes a BMS-compatible high level alarm

KEY FEATURES

- Inlet and discharge pipe work can be fitted to either side of the unit for maximum versatility
- Designed to accept waste from a full bathroom suite including toilet, basin, shower and bidet
- Supplied as standard with a BMS compatible high level alarm
