

Remota90

The Remota90 is a fully automatic floor mounted pumping system suitable for pumping waste from a complete bathroom to a higher level when gravity drainage is not possible and/or economical to install.

The system is suitable for installing either at the initial building stage or retro fitting to existing buildings and can accept waste connections from a toilet, basin, shower or bidet. The Remota90 consists of a 90-litre polyethylene chamber with 110 mm inlet connection, submersible vortex pump, internal pipe work and 1½" PVC outlet connection.

The system does not need to be connected directly onto the toilet and as so is ideal for remote installation (indoors only) therefore the system can be concealed out of sight. The system is highly reliable and easy to maintain due to its clip-on lid.

KEY FEATURES

- Designed for remote, concealed installation
- Reliable submersible pump
- Variety of high level alarms available

SPECIFICATIONS

BS EN 12050-3:2015 Wastewater lifting plants for buildings and sites. Lifting plants for limited applications.

DIMENSIONS (mm)

TECHNICAL DATA

CHAMBER	
Discharge pipework	1½"
Lifting eyes	No
Capacity	90 litres
Chamber material	Tank grade polyethylene
Chamber colour	Grey
Total boxed weight	15.5 kg
PUMP	
No. of pumps	1
Impellor type	Vortex
Power supply	230V AC
Rated current	1.9 A
Motor rating	250 W
Revolutions per minute	2800
Discharge size	1½"
Free passage	36 mm
Max. vertical output	6.5 m
Max. flow rate	4.0 l/s
Max. liquid temperature	<40°C
Cable length	10 m

Do not dispose of wet wipes, sanitary products, nappies, textiles, kitchen roll, newspaper or other non-soluble items into this product as these may cause a blockage.

WASTE TYPE

Grey

Foul

OPTIONAL EXTRAS

Pumps

Control equipment
