

AutoFlush30CSL

The AutoFlush30CSL is a fully automatic pumping station suitable for pumping grey water with small solids (smaller than 5 mm in diameter) to a higher level when gravity drainage is not possible and/or economical to install.

Its chemically resistant pumps feature seals designed to withstand immersion in aggressive chemicals.

The system is ideal for accepting waste from laboratories, photo developing stations, process wastes or similar. It discharges to 32 mm small bore pipe work for installation through busy service voids and roof spaces.

The system consists of a sealed polyethylene chamber, internal pipe work and fittings, a chemically-resistant automatic vortex pump and solvent weld outlet connection. Installation of an optional low level float enables a low level inlet into the chamber.

The AutoFlush30CSL is easy to install as inlets can be drilled to suit site requirements (inlet information to be supplied at time of order).

KEY FEATURES

- Chemically resistant pumps with seals designed to withstand immersion in aggressive chemicals
- Reliable automatic pump suitable for soft solids up to 5 mm in diameter
- Variable inlet positions offer high versatility on site (inlet information to be supplied at time of order)
- A range of alarms and remote alerts are available offering peace of mind to the end user
- 32 mm discharge enables pumping of wastewater through small bore pipes
- Installation of an optional low level float enables a low level inlet into the chamber

TECHNICAL DATA

| Chamber | |
|-------------------------|------------------|
| Colour | Grey |
| Material | Polyethylene |
| Weight | 9 kg |
| Lifting eyes | No |
| Capacity | 30 litres |
| External discharge size | 32 mm |
| Pump | |
| Number of pumps | 1 |
| Power supply | 230 VAC 50 Hz ~1 |
| Rated current | 1.4 A |
| Motor rating | 320 W |
| Revolutions per min. | 2720 rpm |
| Max vertical output | 7 m |
| Horizontal fall | 1:200 |
| Max flow rate | 1.8 l/s |
| Max liquid temp. | <40°C |
| Free passage | 10 mm |
| Discharge size | 1¼" |
| Cable length | 3 m |

DELIVERING PUMPED AND DRAINAGE SOLUTIONS FOR OVER 30 YEARS

Packaged pumping stations

Waste water pumping systems

Macerators and macerating toilets

Floor mounted pumping stations

Fat, oil and grease separating systems

Rainwater harvesting systems

Battery backup systems

Adoptable pumping stations

Submersible pumps

Accessories

We provide pumped and drainage products and services to the public and private sectors including residential, commercial, hospitality and retail. We are proud of the long-term relationships we have built with clients and partners, delivering cost effective, robust and dependable products and services.

12-MONTH GUARANTEE

Your products are protected by a 12-month guarantee. [Terms and Conditions](#) apply.

HOW TO ORDER

Order online at www.edincare.com

Protect your property with an Edincare Service Agreement

As with all pumped and drainage systems, regular maintenance is essential to ensure optimum performance and minimal downtime. Our Service Agreements comprises planned preventive maintenance visits at an agreed frequency, we also service other manufacturers' equipment regardless of type, make and age.

- ✓ Validates your building insurance
- ✓ Reduces the risk of failure
- ✓ Increases the life expectancy of your equipment
- ✓ Priority callouts and 24/7 out-of-hours service
- ✓ Reduced rates for emergency call outs
- ✓ Flexible payment options (Direct Debit)
