

AutoFlushSSHT

The AutoFlushSSHT is a fully automatic pumping station suitable for pumping hot water (up to 90°C) to a higher level when gravity drainage is not possible and/or economical to install.

The compact tank is ideal for accepting waste from laundries or automatic laundrettes, industrial dishwashers, washing machines or for the emergency overflow of heating systems or similar.

The system consists of an easy-to-clean sealed stainless steel chamber, internal pipe work and fittings, an automatic vortex submersible pump and 1½" BSP male-threaded outlet connection.

The pump discharges through small bore pipe work for installation through busy service voids and roof spaces. We recommend discharging to high pressure solvent-weld Class E uPVC. Not suitable for push-fit pipework.

WASTE TYPE

Grey

Hot

KEY FEATURES

- High-temperature pump suitable for wastewater up to 90°C
- Reliable automatic pump suitable for soft solids up to 5 mm in diameter
- High-grade stainless steel chamber with easy to clean finish. Ideal for the catering industry
- 1½" BSP discharge pumping of waste water through small bore pipes
- Optional low level float for when a lower pump activation height is required
- A range of high level alarms and remote alerts are available

DIMENSIONS (mm)

TECHNICAL DATA

Tank specifications	
Material	Stainless steel
Lifting eyes	No
Capacity	90 litres
External discharge size	1½" BSP
Pump specifications	
Number of pumps	1
Power supply	230 VAC 50 Hz ~1
Rated current	3.9 A
Motor rating (P2)	500 W
Revolutions per min.	2510 rpm
Max vertical output	10 m
Max flow rate	5.2 l/s
Max liquid temp.	<90°C
Free passage	30 mm
Cable length	10 m

RECOMMENDED ACCESSORIES AND PRODUCTS

AquaSafe Alarm (Mini) #22070	Low level float #23016	Spare pump #11046	ProTrap Auto 1850-PF #5033
