

# AutoFlushSSCSL

The AutoFlushSS is a fully automatic pumping station suitable for pumping grey and process water with small solids (smaller than 5 mm in diameter) to a higher level when gravity drainage is not possible and/or economical to install.

The compact chamber is ideal for accepting waste from laboratories, photo developing stations, process wastes or similar.

The compact tank is ideal for accepting waste from utility sinks, wash basins, tea points or similar.

The system consists of a sealed stainless steel, internal pipe work and fittings, a chemically-resistant automatic vortex submersible pump and male-threaded outlet connection.

1½" BSP discharge allows small bore pipe work for installation through busy service voids and roof spaces.

## KEY FEATURES

- Chemically resistant pump with seals designed to withstand immersion in aggressive chemicals
- Reliable automatic pump suitable for soft solids up to 5 mm in diameter
- A range of high level alarms and remote alerts are available offering peace of mind to the end user
- Installation of an optional low level float
- High grade stainless steel chamber offers attractive finish and is easy to clean.
- 1½" BSP discharge pumping of waste water through small bore pipes

## DIMENSIONS (mm)

## TECHNICAL DATA

| Tank                    |                 |
|-------------------------|-----------------|
| Material                | Stainless steel |
| Lifting eyes            | No              |
| Capacity                | 90 litres       |
| External discharge size | 1½" BSP         |
| PUMP                    |                 |
| Number of pumps         | 1               |
| Power supply            | 230 V AC 50 Hz  |
| Rated current           | 1.4 A           |
| Motor rating            | 200 W           |
| Revolutions per min.    | 2720 rpm        |
| Max vertical output     | 7 m             |
| Max flow rate           | 1.7 l/s         |
| Max liquid temp.        | <40°C           |
| Discharge size          | 1¼"             |
| Free passage            | 10 mm           |
| Cable length            | 3 m             |

## DELIVERING PUMPED AND DRAINAGE SOLUTIONS FOR OVER 25 YEARS

**Packaged pumping stations**

**Waste water pumping systems**

**Macerators and macerating toilets**

**Floor mounted pumping stations**

**Fat, oil and grease separating systems**

**Rainwater harvesting systems**

**Battery backup systems**

**Adoptable pumping stations**

**Submersible pumps**

**Accessories**

We provide pumped and drainage products and services to the public and private sectors, including residential, commercial, hospitality and retail.

We are proud of the long-term relationships we have built with our clients and partners, delivering cost effective, robust and dependable products and services.

### 12-MONTH GUARANTEE

Your products are protected by a 12-month guarantee. Please refer to our Terms and Conditions at [www.edincare.com](http://www.edincare.com)

### HOW TO ORDER

Order online at [www.edincare.com](http://www.edincare.com)  
Call Sales on 01442 211554

### Protect your property with an Edincare Service Agreement

As with all pumped and drainage systems, regular maintenance is essential to ensure optimum performance and minimal downtime. Our Service Agreements comprises planned preventive maintenance visits at an agreed frequency, we also service other manufacturers' equipment regardless of type, make and age.

- ✓ Validates your building insurance
- ✓ Reduces the risk of failure
- ✓ Increases the life expectancy of your equipment
- ✓ Priority callouts and 24/7 out-of-hours service
- ✓ Reduced rates for emergency call outs
- ✓ Flexible payment options (Direct Debit)
