

# AutoFlushSSProTwin

The AutoFlushSSProTwin is a fully automatic pumping station suitable for pumping grey water with small solids (smaller than 5 mm in diameter) to a higher level when gravity drainage is not possible and/or economical to install.

The compact tank is ideal for accepting waste from utility sinks, wash basins, tea points or similar.

The system consists of a sealed stainless steel, internal pipe work and fittings, two powerful automatic vortex submersible pumps and male-threaded outlet connection.

1½" BSP discharge allows small bore pipe work for installation through busy service voids and roof spaces.

## WASTE

Grey

## KEY FEATURES

- Twin pumps to protect against pump failure and heavy water inflows
- Powerful pumps for higher heads and flow rates
- Reliable automatic pumps suitable for soft solids up to 5 mm in diameter
- A range of high level alarms and remote alerts are available offering peace of mind to the end user
- Installation of an optional low level float
- High grade stainless steel chamber offers attractive finish and is easy to clean. Ideal for the catering industry
- 1½" BSP discharge pumping of waste water through small bore pipes

## DIMENSIONS (mm)

## TECHNICAL DATA

Tank	
Material	Stainless steel
Lifting eyes	No
Capacity	90 litres
External discharge size	1½" BSP
PUMP	
Number of pumps	2
Power supply	230 V 50 Hz
Rated current	4.9 A per pump
Motor rating (P2)	500 W
Revolutions per min.	2800 rpm
Max vertical output	12.5 m
Max flow rate per pump	3.9 l/s per pump
Max liquid temp.	<40°C
Free passage	10 mm
Cable length	5 m
