

HydroFlush

The HydroFlush is suitable for pumping shower water to a higher level when gravity drainage is not possible and/or economical to install.

The compact HydroFlush chamber offers a low level inlet suitable for accepting the waste from a standard shower tray trap. The slim line design allows concealed installation underneath a raised shower tray for inconspicuous installation.

The system consists of a sealed polyethylene chamber, internal and external pipe work and fittings, automatic vortex pump and uPVC outlet connection.

KEY FEATURES

- Designed to accept waste from all conventional shower tray traps
- Concealed installation possible using raised shower tray
- 22 mm discharge allows pumping through small bore pipes

DIMENSIONS (mm)

TECHNICAL DATA

Power supply	230 V 50Hz ~1
Rated current	1.3 A
Motor rating	250 W
Max vertical output	5 m
Max horizontal output	50 m
Horizontal fall	1:100
Activation level	65 mm
Shower tray height	120 mm
Max flow rate	70 l/m
Max liquid temperature	<35°C intermittent
Inlet number	2
Inlet size	40 mm
Discharge size	22 mm
Cable length	1 m
Weight	3.5 kg
Low noise level	40 dB(A)
IP rating	IP44
Colour	White

DELIVERING PUMPED AND DRAINAGE SOLUTIONS FOR OVER 30 YEARS

- Packaged pumping stations
- Waste water pumping systems
- Macerators and macerating toilets
- Floor mounted pumping stations
- Fat, oil and grease separating systems
- Rainwater harvesting systems
- Battery backup systems
- Adoptable pumping stations
- Submersible pumps
- Accessories

We provide pumped and drainage products and services to the public and private sectors including residential, commercial, hospitality and retail. We are proud of the long-term relationships we have built with clients and partners, delivering cost effective, robust and dependable products and services.

12-MONTH GUARANTEE

Your products are protected by a 12-month guarantee. [Terms and Conditions](#) apply.

HOW TO ORDER
