

# Flood Pump Kit

The Flood Pump Kit is designed to remove flood water from your property with speed and efficiency. The pump can operate within the filter chamber for extra protection or independently as required. With manual operation the pump can reduce the water level to 40mm.

The system consists of a slotted polyethylene chamber with a removable automatic waste water submersible pump and delivery hose.

The system is fully portable and is ideal for emergency situations. It is an ideal system to provide peace of mind to those with basements or low lying property.

## KEY FEATURES

- Vortex impellor for high flow rates
- Completely portable and automatic
- Filter chamber provides protection to pump, but pumps can be used independently in clean water environments
- Manual pumping to low level (40 mm)
- Flow of up to 10,000 litres per hour
