

PowerMaster 150-K Twin (Single Phase)

The PowerMaster 150-K Twin is a fully automatic floor mounted pumping station suitable for pumping both foul and storm water to a higher level when gravity drainage is not possible and/or economical to install.

Like all our floor mounted pumping stations, it does not require civils works which makes it ideal for retrofitting into an existing buildings. Its compact chamber allows passage through standard door openings.

It features two powerful macerator pumps powered by a single phase supply via the control panel (included).

It can accept inlets from many orientations up to DN 150 to suit the applications and site requirements. It has a twin 1 1/4" BSP threaded connection.

KEY FEATURES

- Suitable for pumping grey and foul water in accordance with BS EN 12050-1
- Quick and simple installation, without needing civils works
- Compact, robust, odour-tight polyethylene tank
- Compact dimensions that allow passage through a standard door opening
- Control panel with high level alarm and volt-free contact
- Macerator pumps for narrow bore discharge
- A range of accessories

WASTE TYPE

Grey

Foul

TECHNICAL DATA

Power supply	230 V AC 1~
Number of pumps	2
Pump type	Macerator
Rated current	9 A
Motor rating (P2)	1500 W
Revolutions per min.	2900
Max vertical output	25 m
Max flow rate	4.1 l/s
Max liquid temp.	<40°C (<65°C intermittent)
Discharge size	1 1/4" BSP
Mains cable length	1 m
Motor cable length	4 m
Weight	121.6 kg
Tank capacity	150 l
Tank material	Polyethylene

RECOMMENDED ACCESSORIES

Hand membrane pump

#11010

Microvent kit

#13001

Microfilter internal filter

#13021
