

ProTrap100

The ProTrap is an environmentally friendly grease separator system suitable for separating grease and fat from grey water before final discharge. The system is suitable for installing either at the initial building stage or retro fitting to existing buildings and can accept waste connections from sinks or similar.

The system consists of a stainless steel chamber with odour tight lock down lid. It also benefits from a collection basket for easy removal of larger food particles. The Pro Trap range is offered in three sizes.

The ProTrap is to be used in conjunction with BioFax a grease digesting enzyme.

KEY FEATURES

- Suitable for coffee shops, confectioneries, snack bars, patisseries and other small catering applications
- Prevents fat, oil and grease entering the drainage system
- Environmentally friendly
- Easy to install and maintain
- Stainless steel chamber ideal for the catering industry
- To be used in conjunction with BioFax enzyme
- Small footprint and portable

DIMENSIONS (mm)

TECHNICAL SPECIFICATIONS

Tank material	Stainless steel
Meals per day rating	130
Maximum sink capacity	124 litres
Maximum flow rate served	1.25 l/s
Grease retention capacity	30.8 kg
Solid strainer capacity	4.4 litres
Strainer basket emptying	1-2 times daily
Tank pump out frequency	Every 15 days
Tank pump out frequency with dosing unit	Every 60 days
Enzyme dosing rate	7.8 litres per month
Weight	22 kg

WASTE

Grey

ACCESSORIES

Dosing pump (Mains Operated)

#11000

Dosing pump (Battery Operated)

#11068

BioFax, 10 litres, double concentrated

#28004
