

EcoTrap 300 below-ground grease trap

The EcoTrap 300 is a fat, oil and grease separator suitable for installing below ground.

Its distinctive profile provides excellent grease and solid retention. It is manufactured from high-density polyethylene (HDPE) in a one-piece moulding technique which ensures exceptional strength and durability.

The EcoTrap 300 features 110 mm pipework connections and a 3.5 tonne rated lockable plastic 450mm circular cover. A 220 mm circular chamber extension riser is available if needed.

DIMENSIONS (mm)
