

WaterGuard (Garden) 8500

KEY FEATURES

- 8,500 litre total storage capacity constructed from 100% recycled polyethylene
- Overflow to storm drain or soakaway
- Offers unregulated use of your outdoor tap
- Reduces mains water consumption
- Environmentally-friendly

WASTE

Storm

WaterGuard (Garden) 8500 is a fully automatic rainwater harvesting system used for the collection and supply of rainwater within both domestic and commercial applications.

It is designed to accept rainwater from downpipes, which is then filtered into a collection tank ready to be used to serve an outdoor tap for watering the garden or outdoors cleaning. It is not suitable for drinking or for domestic appliances like WCs or washing machines.

The system consists of a 100% recycled polyethylene chamber with locking pedestrian duty access cover, connections for all connecting pipework, submersible pump with floating water intake and Garden filter package complete with overflow syphon and calmed inlet. It includes 25 m of 25 mm HDPE hose for the discharge line.

This environmentally-friendly system offers unregulated use of your outdoor tap and also saves money through reduced mains water consumption for domestic appliances.

INCLUDED

WaterGuard (Garden) 8500 system comes with:

- 8,500 litre polyethylene chamber
- Telescopic Dome Shaft 'Mini', pedestrian duty
- Garden filter
- Overflow syphon
- Calmed inlet
- Floating intake valve
- Fully-automatic submersible pump
- Flexible internal pipework
- Fully-automatic mains water top-up panel
- 25 m HDPE hose, 25 mm c/w fittings

Garden Filter

Telescopic Dome Shaft 'Mini'

Fully-automatic submersible pump

25m HDPE hose, 25mm

Overflow syphon

Calmed inlet

Floating intake valve

WaterGuard (Garden) 8500

CHAMBER SPECIFICATIONS

Inlet diameter	DN 150
Lifting eyes	No
Maximum storage capacity	8,500 litres
Chamber material	Linear low density polyethylene
Dimensions (Ø x L x H)	2040 x 3500 x 2695 mm
Chamber weight	380 kg

DELIVERING PUMPED AND DRAINAGE SOLUTIONS FOR OVER 30 YEARS

Packaged pumping stations

Waste water pumping systems

Macerators and macerating toilets

Floor mounted pumping stations

Fat, oil and grease separating systems

Rainwater harvesting systems

Battery backup systems

Adoptable pumping stations

Submersible pumps

Accessories
